TITLE INDEX

Volume 56

1984

30/30 Hindsight (Monitor) 301

A

A method for establishing site-specific stream design flows for wasteload allocations (Biswas, Bell) 1123
A new continuously monitored collection system for liquid industrial wastes (Emility, Sanders, Garde, Bucholz) 1192
A survey of combined trickling filter and activated sludge processes (Harrison, Daigger, Filbert) 1073
Acclimation of activated sludge on pentachlorophenol (Hickman, Novak) 364
Accommodating the era of challenge (Presidential message) 990
Accommodating the new challenges—a decade of change (Gloyna), (Presidential message) 2
Achieving wastewater compliance with reduced grant support (Hegg, Schultz, Zickefoose, Matter) 1007
Aerobic and anaerobic intermediate storage of activated sludge: efficiency study (Gonzalez-Martinez, Norouzian) 1173
Aerobic sludge digestion with pH control—preliminary investigation (Anderson, Mavinic) 889
Aluminum hydrolysis effects of phosphorus removal from wastewaters (Diamadopoulos, Benedek) 1165
An innovative approach to planned maintenance (Lyles) 408
An innovative process for treating recycled cooling water (Batchelor, McDevitt) 1110
Anaerobic activated carbon filter for the degradation of polycyclic N-aromatic compounds (Wang, Suidan, Pfeffer) 1247
Another enforcement strategy (Editorial) 113
Assessing cost-benefit assessments (Editorial) 391

B

BAT and beyond (Editorial) 299
Behavior of arsenical waters co-disposed with domestic solid wastes (Blakey) 69
Benthal stabilization of organic carbon and nitrogen: the development of interstitial profiles (Bryant, Rich) 1199
Biological risks associated with the composting of wastewater treatment plant sludge (Clark, Djornson, Holland, Schwartz-Fullton, Gartside) 1269
Blue crab processing plant effluent treatment (Wheaton, Brinsfield, Lomax, Geiger) 482

C

Case history of industrial pretreatment in Columbus, Ohio (Stonerook, Kerr, Newell, Ferell) 1093
Chemical and toxicity analysis of leachates from coal conversion solid wastes (Neufeld, Wallach) 266
Chemical aspects of the lime seawater process (Ferguson, Vrale) 355
Chemical reactor design theory and biological treatment of industrial wastes—is there a gap? (Busch) 215
Chemical selection and operational considerations for filter press dewatering (Sliger) 314
Combined treatment of coke plant wastewater and blast furnace blowdown water in a coupled biological fluidized bed system (Melcer, Nutt, Marvan, Sutton) 192
Complexation of heavy metals in extracellular polymers in the activated sludge process (Rudd, Stemitt, Lester) 1260
Computer-controlled operation of an activated sludge plant (Grinker, Meagher) 823
Construction grants: Light at the end of the tunnel—Interview with Henry L. Longest II (Monitor) 1142

D

Demonstration or rapid infiltration technology, Ismalia, Egypt (Levine) 1104
Design, start-up, and operation of an ozone disinfection unit (Rakness, Stover, Krenek) 1152
Design and operation of an upflow anaerobic sludge blanket reactor (Christensen, Gerick, Eblen) 1059
Determination of enzyme activity of activated sludge by methylene blue reduction (Jorgensen) 89
Disinfection of nitrified effluents (Communication) (Gasser) 386
Disinfection of secondary effluent with ozone/UV (Venosa, Petrasek, Brown, Sparks, Allen) 137

E

Earthworms and trickling filters (Communication) (Hartenstein, Kaplan, Neuhauser) 294
Economic evaluation of upgrading aeration systems (Stenstrom, Vazirinejad, Ng) 20
Effect of low dissolved oxygen concentration on effluent turbidity (Starkey, Karr) 837
Effect of plastic media configuration on trickling filter performance (Parker, Merrill) 955
Effects of multiple digestion on sludge (Torpey, Andrews, Basilico) 62
EPA changes rules on clean water grant appeals (Diamond, Davis) (Feature) 14
Estimation of effective intraparticle diffusion co-efficients with differential reactor columns (Aguwa, Patterson, Haas, Noll) 442
Evaluation of filter press performance for sludge dewatering (Mininni, Spinosa, Misiti) 331
Experimental evaluation of the significance of overflow rate and detention period (Dietz, Keinath) 344

F

Full-scale evaluation of aerated grit chambers (Morales, Reinhart) 337

G

General directions for the U.S. clean water program (WPCF Committee Report) 1220
Groundwater contamination: a pound of prevention (Monitor) 810
Groundwater Contamination In The United States (book review) 81a
Growth kinetics of *sphaerotilus natans* and a floc former in pure and dual continuous culture (Lau, Strom, Jenkins) 41

H

Have application factors outlived their usefulness? (Cairns) (Communication) 487
High rate conversions of soluble organics with a thermophilic anaerobic attached film expanded bed (Schraa, Jewell) 226
History of water pollution control (Fuhrman) 306
House and Senate at odds over Clean Water Act Amendments (Monitor) 910
How wind can effect a sedimentation basin (Communication) (Stefan, Rodney) 1204

F

Full-scale evaluation of aerated grit chambers (Morales, Reinhart) 337

G

General directions for the U.S. clean water program (WPCF Committee Report) 1220
Groundwater contamination: a pound of prevention (Monitor) 810
Groundwater Contamination In The United States (book review) 81a
Growth kinetics of *sphaerotilus natans* and a floc former in pure and dual continuous culture (Lau, Strom, Jenkins) 41

H

Have application factors outlived their usefulness? (Cairns) (Communication) 487
High rate conversions of soluble organics with a thermophilic anaerobic attached film expanded bed (Schraa, Jewell) 226
History of water pollution control (Fuhrman) 306
House and Senate at odds over Clean Water Act Amendments (Monitor) 910
How wind can effect a sedimentation basin (Communication) (Stefan, Rodney) 1204

I

Identification and significance of filamentous microorganisms in activated sludge (Strom, Jenkins) 449
Inactivation kinetics in a flow-through UV reactor (Severin, Suidan, Rittman, Engelbrecht) 164
Inactivation of *Naegleria* and *Giardia* cysts in water by ozonation (Wickramanayake, Rubin, Sproul) 983
Indeterminancy in mechanistic biological models (Sykes) 209
Industrial wastewater treatment with water reuse at a coal-fired generating station (Wagner, Strittmatter) 977
Integrating water quality and construction grants management (Ellis, Klima, Wycoff, McKay) 1022
Internationalism begins at home (Editorial) 1141
Interview with Bernard Goldstein (Monitor) 1064
Irrigation of public use areas by land application of combined industrial and domestic waste effluent (Sloan) 474

J

Journal interview: EPA Assistant Administrator Jack Ravan (Monitor) 392

K

Kinetics of wastewater chlorine demand exertion (Haas, Karra) 170

L

Lakes are losing the battle in clean water programs (Duda, Johnson) (Feature) 815
Land application odor study (Gerick) 287
Land treatment of contaminated sludge with wastewater irrigation (Demirjian, Westman, Joshi, Rop, Buhl, Clark 370
Landfill leachate treatment (Keenan, Steiner, Fungaroli) 27
Let's balance R&D (Editorial) 203

M

Making full use of step feed capability (Buhr, Goddard, Wilson, Ambrose) 325
Managing water resources in the New Orleans area (Feature) 995
Mass transfer of volatile organic compounds in packed tower aeration (Ball, Jones, Kavanaugh) 127
Measurement and new applications of oxygen uptake rates in activated sludge processes (Huang, Cheng) 259
Metals distributions in activated sludge systems (Patterson, Kodukula) 432
Method madness (Monitor) 1003
Microbiological aerosols from the application of liquid sludge to land (Sorber, Moore, Johnson, Harding, Thomas) 830
Mixing effects in UV disinfection (Severin, Suidan, Engelbrecht) 881
Modeling of adsorber performance: variable influent concentration and comparison of adsorbents (Thacker, Crittenden, Snoeyink) 243
Modeling volatile organic solute removal by surface and bubble aeration (Roberts, Munz, Dandliker) 157
Municipal compliance—another view (Schaeffer, Kerster, Janardan) 924

N

New bleached kraft pulp plant in Georgia—state-of-the-art environmental control (Byrd, Ehrke, Whitfield) 378
New ideas for funding local treatment (Editorial) 807
Nitrification of anaerobically treated coal gasifier effluent (Lu, Cross, Chian, Pohland, Gao) 1050
Nitrite build-up in activated sludge resulting from combined temperature and toxicity effects (Randall, Buth) 1045
Nitrite build-up in activated sludge resulting from temperature effects (Randall, Buth) 1039
Nitrogen cycle and algal growth modeling (Bingham, Lin, Hoag) 1118
Nitrogen removal from municipal wastewater by a single submerged filter (Iida, Teranishi) 251

O

On-line measurement of respiration and mass transfer rates in an activated sludge aeration tank (Howell, Yust, Reilly) 319
On-line monitoring data replaces analytical date (Winter, Ogle) 1099
Operating experience with computer control of air nitrification (Johnson, Lutman, Fertik) 1223
Optimization of a wastewater treatment plant by the employee involvement optimization system (EIOS) (Springer, Schaefer, Profitt) 1080

P

Physical aspects of surface aeration design (Stukenberg) 1014
Pilot plant demonstration of biological phosphorus removal (Deakyne, Patel, Krichten) 867
Pilot tests prove innovative, cost-saving wastewater treatment system (Christopher, White, Peterson, Cox) 34
Powdered activated carbon treatment process mechanisms (Shultz, Keinath) 143
Preliminary findings of the priority pollutant monitoring project of the nationwide urban runoff program (Cole, Frederick, Healy, Rolan) 898
Progress and challenges (Editorial) 909

R

Rapid aerobic biostabilization of high-strength industrial landfill leachate (Venkataramani, Ahlert) 1178
Rapid BOD measurement for municipal wastewater samples using a biofilm electrode (Strand, Carlson) 464
Recent observations and new developments in the calibration of open channel wastewater monitors (Debevoise, Fernandez) 1185
Recovery of silver and mercury from COD samples by iron cementation (Gould, Masingale, Miller) 280
Relationships among observed metal concentrations, criteria, and benthic community structural responses in 15 streams (LaPoint, Melancon, Morris) 1030
Removal of silver and mercury from spent COD test solutions (Hendrickson, Benjamin, Ferguson, Goebel) 468
Removal of volatile organic pollutants from rapid streams (Cadena, Eiceman, Vandiver) 460
Renovation of wastewater at the 23rd Avenue rapid infiltration project, Phoenix, Arizona (Bouwer, Rice) 76
Restoration of failing on-site wastewater disposal systems using water conservation (Sharpe, Cole, Fritton) 858
Return flows from sludge treatment (Lawler, Singer) 118

S

Secondary treatment: regulatory reality (Monitor) 204
Sensory analysis of odorous water samples (Van Langenhove, Teerlinck, Van Wassenhove, Schamp) 351
Sludge dewatering and disposal in the plup and paper industry (Amberg) 962
Social institutions influencing land application of wastewater and sludge (Forster, Southgate) (Feature) 399
Soil-aquifer treatment—a new approach to an old method of wastewater reuse (Idelovich, Michail) 936
Soil-aquifer treatment using primary effluent (Rice, Bouwer) 84
Speak out on clean water issues (Editorial) 1
Stabilization of sludge from an oxidation ditch (Novak, Eichelberger, Banerji, Yaun) 950
Status of water quality modeling in the pulp and paper industry (Firth) 1131

Streamlining the review (Editorial) 491
Substrate removal in the trickling filter process (Vaughan, Holder) 417

T

Technique for estimating sludge compactability in centrifugal dewatering (Vesilind, Zhang) 1231
Tertiary filtration: practical design considerations (Seimak) 944
The challenge is defined (New Orleans Conference Report) 1215
The challenge of toxic chemical control (Monitor) 7
The competitive growth of floc-forming and filamentous bacteria: a model for activated sludge bulking (Lau, Strom, Jenkins) 52
The concurrent development of an industrial waste pretreatment program and residual solids management plan (Wilson, Heinemann, Erwin, Canahl) 928
The "creative" revolution in municipal finance (Monitor) 11
The enforcement dilemma (Monitor) 115
The environmental issue in the 1984 elections (Monitor) 1069
The impact of combined sewer overflows from San Francisco on the western shore of central San Francisco Bay (Hoffman, Meighan 1285
The measurement of benthal oxygen demand in the Houston Ship Channel (Ward) 183
The need to reassess use of the BOD_5 test (Communication) (Heddle) 292
The next ten years (Feature) (Wolman) 1148
The nonsteady-state-biofilm process for advanced organics removal (Rithmann, Brunner) 874
The recovery of DDT, kepone, permethrin added to soil and sediment suspensions incubated under controlled redox potential and pH conditions (Gambrell, Reddy, Collard, Green, Patrick) 174
The Scientist And Engineer In Court (Book Review) 27a
Theoretical estimation of kinetic parameters in the design of activated sludge processes (Randall, Camara) (Communication) 338
Treatment of a high-strength industrial waste in a continuously fed intermittently operated activated sludge system (Bell, Hardcastle) 1160
Treatment of arsenic(V)-containing water by the activated carbon process (Huang, Fu) 233
Treatment of Oil-Containing Wastewater (Book Review) 314a
Treatment of saline wastewaters using a rotating biological contactor (Klemetson, Lang) 1254
Two approaches to plant operations (Editorial) 1063
Two-stage biological fluidized bed treatment of coke plant wastewater for nitrogen control (Nutt, Melcer, Pries) 851

U

Ultraviolet disinfection of secondary effluent (Whitby, Palmateer, Cook, Maarschalkerweerd, Floor, Huber) 844
Use of artificial wetlands to remove nitrogen from wastewater (Gersberg, Elkins, Goldman) 152
Use of coagulants to treat seafood processing wastewaters (Johnson, Gallanger) 970
Use of dissolved oxygen modeling results in the management of river quality (Rickert) 94
Use of earthworms in sludge management (Brennan, Hartenstein) 1136
Use of lime clarification and reverse osmosis in water reclamation (Argo) 1239
Use of water hyacinth aquatic treatment for ammonia control and effluent polishing (Hauser) 219
Using the Literature Review (Saunders) (Feature) 492

W

Wastewater treatment with aerated submerged biological filters (Rusten) 424
Water quality management decisions on two Oklahoma streams (Hunter, Carroll, Staves) 274
What a decade can do 918
WPCF reports on sludge and wastewater disinfection (Committee report) 405
